EDUCATION

Karunya Institute of Technology and Sciences

B.Tech in Computer Science and Engineering (CGPA: 8.84)

Coimbatore, India

Aug. 2024 – Present

EXPERIENCE

Software Development Intern

June 2026

Bharat Electronics Limited

Bangalore, India

- Contributed to the development of a LAN-based messaging application using Java, Spring Boot, React, and Electron.
- Developed backend APIs and implemented core logic using Spring Boot.
- Integrated frontend components with backend services, enabling seamless communication between the user interface and server.

President, Career Guidance Club

Sep. 2026 – Present

Computer Innovation and Research Association (CIRA), Karunya University

Coimbatore, India

- Planning and organizing workshops, competitions, guest sessions, and career-focused events for the student community.
- Coordinating with club members, faculty, and external speakers to manage event planning, execution, and student engagement.

Web Developer

Sep. 2025 – April, 2026

KHacks, Karunya Innovation and Design Studio

Coimbatore, India

- Contributed to the development of the official KIDS website by working on both frontend and backend components
- Built and integrated responsive UI features to improve usability and performance.
- Developed independent full-stack web applications to gain hands-on experience with React, Django, PostgreSQL, and Docker.

PROJECTS

Klean | Python, Flask, React, ESP32, Leaflet.js, OpenRouteService

October, 2025

- Developed an IoT powered, full-stack waste reporting and collection system with separate civilian reporting interface and driver dashboard.
- Built a Flask-based REST API to handle waste reports, image uploads, and real-time dustbin status updates.
- Implemented ESP32-based ultrasonic sensor integration for real-time smart dustbin monitoring.
- Enabled real-time frontend polling and analytics dashboard for monitoring bin capacity and battery levels.

Divine Foods | React, Node.js, TypeScript, Supabase

May, 2026

- Developed a full-stack e-commerce platform for indigenous food products using React, Tailwind CSS, and Supabase.
- Designed a role-based admin dashboard to manage products, categories, users, inventory, and customer orders.
- Built core e-commerce features including product catalog, shopping cart, order management, customer reviews, and Razorpay payment integration.

CERTIFICATIONS

Microsoft - Azure Fundamentals

Red Hat System Administration I

Cisco CCNA - Computer Networking

The Linux Foundation - Introduction to Linux

IBM Design - Artificial Intelligence Fundamentals

NPTEL - Design and Engineering of Computer Systems

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, HTML/CSS

Frameworks: React, Node.js, Django, PostgreSQL(Database)

Developer Tools: Git, Docker, VS Code
